Deskribapena: Descripción:	Kids&Us Azpeitia is an English school for babies and kids from 1 year old, based in Azpeitia. We follow our own differentiated and innovative methodology that is firmly rooted in the natural language acquisition process. If first language acquisition begins from the moment a child first hears the language, what is the point of waiting to expose them to a second or third language? Kids&Us introduces children to the learning of a new language through a continuous exposure and stories with charismatic characters who will take the little ones to the world of learning languages. We treat our students as potential native speakers.
